To,
Amazon
Seattle,
Washington, US

Dear Hiring Manager,

I am writing to express my strong interests for a Software Engineer Intern position at Amazon. I am pursuing master degree in software engineering at San Jose State university. I have more than one year of professional IT experience as JavaScript Developer.

During my master degree, I have worked on Dropbox Prototype Project with JavaScript. I have used React as frontend technology and NodeJs and Nosql database(Mongodb) as backend. I also have good knowledge of Git and GitHub. In my academics, I have learned Data structure, Object oriented Programming with Java and Machine Learning. With these knowledge, I can give my contribution from first day and perform efficiently. As a software engineer, I explore and quickly adapt to new development platform, tools and programming paradigms. I have zeal to work on real world technical challenges and to find innovative solutions. I love to work in fast pace environment, surrounded by brilliant minded people and technology enthusiastic. Amazon is a place for this.

In my professional experience at TCS, I have worked as Javascript developer. I have developed content for Mymaths which is used by 4 million students. I was awarded employee of the month during my job tenure. I have achieved Microsoft Technical Associate certification in .Net Technology, Database and Testing. During my internship at TCS, I have developed Known Error Database which reduced Change Request by 30%.

I would welcome the opportunity to meet with you to further discuss the position and my qualifications as I feel I will be valuable asset to your team. I am willing to relocate and have a desire for a long-term relationship with Amazon. Please do not hesitate to contact me.

Thank you for your time and I look forward to hearing from you.

Sincerely,

Aditya Parmar
